### Reasons for Allowance

On 25 August 2005, the Board reversed the Examiner's rejection. The Board also presented new grounds of rejection of claims 37 and 41 under 35 USC 112, second paragraph. Claim 41 was rejected under 35 USC 101.

On 24 October 2005, applicant submitted an amendment. Applicant cancelled claim 41 and claims dependent thereupon. Applicant amended claim 37.

Claims 2, 3, 5-9, 11-18, 28-35, 37-40, 46-56 are allowed.

Rejection of claim 41 is moot in view of cancellation of claim 41.

Rejection of claim 37 is withdrawn in view of amendment.

The following is an examiner's statement of reasons for allowance for independent claim 37.

The Board found that there is no clear teaching or fair suggestion of an

...operating system, including an operating system desktop shell interface and an extension to the operating system desktop shell interface, the shell extension supplying third image data to the user station, wherein the shell extension is capable of facilitating an order...we find no express or implied teaching or suggestion ...[in prior art]... which would have suggested the capability of facilitating an order *in a network photo print system* ... page 8 of Decision.

...it is apparent to us that considerable speculations and assumptions are necessary in order to determine what in fact is being claimed. Since a rejection based on prior art cannot be based on speculations and assumptions [citations omitted] we are constrained to reverse, pro forma, the examiner's rejections of independent claims...We hasten to add that this is a procedural reversal rather than one based on the merits of the Section 103 rejections." Page 10 of decision.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statements for Reasons for Allowance."
